Wanda and Patrick -- attached are my comments, recommendations, and questions about the staff report on sPower's SUP application for Site A, a 400 MW solar power facility.

Please review the attached document thoroughly, and let me know if you have any questions. I I hope that my recommendations will be included in your next revision of the staff report in order to address several critical issues and to clarify the conditions that will be required for the proposed project.

Regards,

David Hammond
