

At a meeting of the Spotsylvania County Board of Supervisors held on June 27, 2017 on a motion by _____, seconded by _____ and passed _____, the Board adopts the following ordinance:

AN ORDINANCE No. 23-171

CA17-0005: Off-Street Parking, Stacking and Loading

To amend County Code Chapter 23, Article 5- General Development Standards as part of an ongoing effort to review and update the Spotsylvania County Zoning Ordinances. Proposed amendments include: Division 23-5.9 Off-Street Parking; Division 23-5.10 Off-Street Loading; Division 23-5.11 Off-Street Stacking. Amendments are intended to: update and clarify various County Code references pertaining to off-street parking, loading and stacking including correcting assignment of interpretation and enforcement functions, and; revise off-street parking and stacking standards to include an expanded list of uses and attempt to reduce parking minimum requirements where appropriate.

PUBLIC HEARING: June 27, 2017

WHEREAS, staff has reviewed the Code Amendments and recommends approval as stated in the Executive Summary dated June 27, 2017; and

WHEREAS, the Planning Commission held a public hearing on this item on May 17, 2017 and a motion was made and seconded to recommend approval of the Zoning Ordinance Amendments, with a vote of 7-0; and

WHEREAS, the Spotsylvania County Board of Supervisors' public hearing, duly advertised in a local newspaper for a period of two weeks, was held on June 27, 2017, and interested citizens were offered the opportunity to be heard; and

WHEREAS, good zoning practice and general welfare are served by approval of the Code Amendments.

NOW, THEREFORE, THE BOARD OF SUPERVISORS FOR THE COUNTY OF SPOTSYLVANIA HEREBY

ORDAINS:

§ 1. That Chapter 23, Article 5, Division 9 be and hereby is **amended** and reordained as

follows:

DIVISION 9. - OFF-STREET PARKING

Sec. 23-5.9.1. - Applicability.

All structures built and all uses established hereafter shall provide accessory off-street parking in accordance with the following regulations; provided however, in a Planned Development Commercial (PDC) or Planned Development Housing (PDH) zoning district, the provisions of this division shall have general application as determined by the director-Zoning Administrator and such modifications provided for in Mixed Use (MU), Sec. 23-6.28.6.

(Ord. No. 23-66, 10-24-95)

Sec. 23-5.9.2. - General provisions.

(a) All required off-street parking spaces shall be located on the same lot as the structure or use to which they are accessory or on a lot contiguous thereto which has the same zoning classification and is under the same ownership; provided that where there are practical difficulties or if the public safety and/or public convenience would be better served by the location other than on the same lot or on a contiguous lot with the use to which it is accessory, the board Board of Supervisors, acting upon a specific application, may authorize such alternative location subject to the following conditions:

(1) Such required space shall be located on land in the same ownership as that of the land on which is located the use to which such space is accessory or, in the case of the cooperative provision of parking spaces, as provided in paragraph-Paragraph 3 below, in the ownership of at least one of the participants in the combination, and

(2) Such required space shall be located within five hundred (500) feet walking distance of a building entrance to the use that such space services.

(b) When required by the provisions of the Virginia Uniform Statewide Building Code (VUSBC), off-street parking spaces and related access aisles and accessibility routes for handicapped persons shall be provided in accordance with the VUSBC. The number of parking spaces for the handicapped shall be included in the required number of parking spaces. Each such parking space shall be identified by an above grade sign indicating parking for the handicapped only and conforming with to the design and content specifications of the director-of-planning Zoning Administrator.

(c) Required off-street parking spaces may be provided cooperatively for two (2) or more uses, subject to arrangements that will assure the permanent availability of such spaces to the satisfaction of the director-of-planning Zoning Administrator. The amount of such combined space shall equal the sum of the amounts required for the separate uses, except that the board-Zoning Administrator may reduce the total number of parking spaces required by strict application of said requirements when it can be determined that the same spaces may adequately serve two (2) or more uses by reason of the hours of operation of such uses.

(d) Except as may be qualified elsewhere in this chapter Chapter, off-street parking spaces that are located on the ground and are open to the sky may be located in any required yard but not nearer to any front lot line than ten (10) feet.

Except as may be qualified elsewhere in this chapter Chapter, parking structures and carports shall be subject to the minimum yard requirements applicable in the zoning district in which located; except parking structures that are completely underground may be located in any required yard, but not closer than one (1) foot to any lot line.

(e) All off-street parking facilities shall be used solely for the parking of vehicles in operating condition by patrons, occupants or employees of the use to which such parking is accessory.

No motor vehicle repair work except emergency service shall be permitted in association with any required off-street parking facilities.

(f) All off-street parking space shall be provided with safe and convenient access to a street. If any such space is located contiguous to a street, the street side thereof shall be curbed, and ingress and egress shall be provided only through driveway openings through the curb of such dimension, location and construction as may be approved by the ~~director of planning~~ Zoning Administrator.

(g) All off-street parking areas, including aisles and driveways, except those required for single-family detached dwellings, shall be constructed and maintained with a dustless surface.

The ~~director of planning~~ Zoning Administrator may approve a modification or waiver of this requirement based on the scope, nature, or location of the proposed development or use. Such off-street parking areas, including aisles and driveways, shall be constructed, and maintained in good condition at all times in accordance with standards approved by the ~~director of planning~~ Zoning Administrator.

(h) All off-street parking spaces and areas shall comply with the geometric design standards presented in ~~the design standards~~ Sec. 23-5.9.4. Parking Geometrics Standards.

(i) All parking spaces, except those provided for and on the same lot with single-family detached and attached dwellings, shall be clearly marked and shall be subject to the approval of the ~~director of planning~~ Zoning Administrator. This marking shall be accomplished by means of paint striping or in the case of gravel lots through the use of fixed curb stops. Any proposal to re-designate parking space delineations ~~which that~~ changes the existing space size, configuration or number, shall require the submission to and approval by the ~~director of planning~~ Zoning Administrator of a plan certified by an engineer or land surveyor authorized by the State Commonwealth of Virginia to practice as such. Such plan shall show all off-street parking, related driveways, loading spaces and walkways, indicating type of surfacing, size, angle of stalls, width of aisles and a specific schedule showing the number of parking spaces provided and the number required by the provisions of this article. No plan shall be approved which reduces the number of parking spaces below the minimum number required by this ~~article~~ Article.

~~(i) All required stacking spaces shall be a minimum of eighteen (18) feet in length. In addition, the geometric design of the stacking aisle(s), including but not limited to the radius and width of the travel aisle, shall be subject to the approval of the director of planning.~~

~~(j) All lighting fixtures used to illuminate off-street parking areas shall be designed to minimize glare.~~

~~(j) Such areas~~ Parking areas shall not be lighted at any time other than during the same hours that the use to which the parking is appurtenant is open for business, and up to an hour prior to opening and an hour following closing, except for necessary security lighting.

(k) Parking spaces required on an employee/person basis in the sections that follow shall be based on the maximum number of employees/persons on duty or residing, or both, on the premises at any one time.

(l) Where a given use or building contains a combination of uses as set forth in the following sections, parking shall be provided on the basis of the sum of the required spaces for each use or in accordance with ~~a~~ Article 5, ~~d~~ Division 9, ~~s~~ Section 2, ~~p~~ Paragraph (c).

(m) If there is uncertainty with respect to the amount of parking spaces required by the provisions of this ~~chapter~~ Chapter as a result of an indefiniteness as to the proposed use of a building or of land, the maximum requirement for the ~~general-similar~~ type of use that is involved shall govern.

(n) Where the required number of parking spaces is not set forth for a particular use in the following sections, and where there is no similar general type of use listed, the ~~z~~ Zoning ~~a~~ Administrator shall determine the basis of the number of spaces to be provided.

(o) The ~~planning commission~~ Zoning Administrator may reduce the total number of parking ~~and/or stacking~~ spaces required by the strict application of the provisions of this division when it has been conclusively demonstrated that circumstances, site design or location do not warrant the number of spaces required and that such reduction will not adversely affect pedestrian or vehicular circulation on the site or on any abutting street.

(p) Tractor-trailer trucks and refrigerated trucks shall not be permitted to park in approved subdivisions in the ~~r~~ Residential (1) and (2) districts, except when actually making pickups or deliveries.

(q) Any vehicle located at a dwelling, single-family must be registered with the ~~e~~Commissioner of ~~r~~Revenue to the physical address of the dwelling, single-family as required by ~~e~~Chapter 12, ~~a~~Article II, vehicle registration fee of the Code of Spotsylvania County.

~~(r) On lots of twenty thousand (20,000) square feet or less, or in residential subdivisions with four (4) or more lots in which ten (10) percent or more of the lots have a lot size of twenty thousand (20,000) square feet or less, the on-site exterior parking of motor vehicles must be within a parking area. For the purposes of this section:~~

~~(i) A parking area shall be an area with a surface of gravel, asphalt or concrete, not exceeding an aggregate area of two hundred (200) square feet per passenger vehicle parked, up to a maximum allowed parking area of fifteen (15) percent of the total square footage of the lot or two thousand five hundred (2,500) square feet per lot, which ever is less.~~

~~(ii) A parking area shall be limited to that area between the centerline of the front of the dwelling, single-family, to one (1) of the front corners and the public right-of-way (or a private road) and along the side of the dwelling, single-family, which is adjacent to and contiguous with the parking in front of the dwelling, single-family, detached.~~

~~However, this limitation shall not apply where all of the parking is provided in the rear of the dwelling, single-family, and accessed by an alley. The zoning administrator shall have the authority to approve a variance to allow for a circular driveway, which leaves a pervious area of mulch, grass or like material between the circular driveway and the public right-of-way.~~

~~(iii) A parking area for vehicles shall not apply to vehicles in operable condition: (a) licensed as antique vehicles and displaying an antique tag, (b) any vehicle registered to a member of the family and parked at the residence for not more than ninety (90) days during any twelve-month period or (c) any vehicle parked at the residence for not more than fourteen (14) days during any twelve-month period.~~

(Ord. No. 23-66, 10-24-95; Ord. No. 23-73, 8-12-97; Ord. No. 23-119, 9-11-07; Ord. No. 23-123, 12-11-07)

<p>Note 1: Where more than one (1) office bldg. is located on a lot, the parking requirements shall be based on the gfa of each building individually and not on the total gross floor area of all buildings on the lot. For purposes of this provision, buildings connected by structures such as atriums, awnings, breezeways, carports, garages, party walls or plazas shall not be deemed to be one (1) building.</p>	
<p>Note 2: The off-street parking requirement set forth above shall be applicable to all uses in a shopping center, except the area occupied by theaters with more than two thousand (2,000) seats. An additional three-tenths (.3) space shall be provided for each seat above two thousand (2,000) seats. The Zoning Administrator may reduce the overall required parking requirements by the percentage of gross floor area of the enclosed pedestrian walkway, excluding any area within the enclosed pedestrian walkway that is leased.</p>	
<p>Note 3: Alternative Standards may be accepted as determined by the Zoning Administrator based on a review of each proposal to include such factors as: the number of spaces required to accommodate employees; public use vehicles anticipated to be on-site that can be used for auxiliary parking in times of peak demand. In no instance, however shall the number of spaces required for government office use be less than that required herein for general office use.</p>	
<p>Note 4: The number of spaces required may be reduced by up to fifty (50) percent if the use is located within five hundred (500) feet of any public parking lot or any commercial parking lot where sufficient spaces are available by permission of the owners without charge, during the time of service to make up the additional spaces required.</p>	
<p>Note 1: Where more than one (1) office bldg. is located on a lot, the parking requirements shall be based on the gfa of each building individually and not on the total gross floor area of all buildings on the lot. For purposes of this provision, buildings connected by structures such as atriums, awnings, breezeways, carports, garages, party walls or plazas shall not be deemed to be one (1) building.</p>	
<p>Note 2: The off street parking requirement set forth above shall be applicable to all uses in a shopping</p>	

~~center, except the area occupied by theaters with more than two thousand (2,000) seats, an additional three-tenths (.3) space shall be provided for each seat above two thousand (2,000) seats. The zoning administrator may reduce the overall required parking requirements by the percentage of gross floor area of the enclosed pedestrian walkway, excluding any area within the enclosed pedestrian walkway that is leased.~~

~~Note _____ 3:
The number of spaces required may be reduced by up to fifty (50) percent if the use is located within five hundred (500) feet of any public parking lot or any commercial parking lot where sufficient spaces are available by permission of the owners without charge, during the time of service to make up the additional spaces required.~~

~~Note _____ 4:
As determined by the director of planning, based on a review of each proposal to include such factors as the number of spaces required to accommodate employees, public use vehicles anticipated to be on-site that can be used for auxiliary parking in times of peak demand. In no instance, however shall the number of spaces required for government office used be less than that required herein for general office use.~~

~~Note _____ 5:
A. Enclosed Retail Area One (1) space per each two hundred fifty (250) square feet of retail sales.~~

~~B. Greenhouse Sales Area One (1) space per two hundred fifty (250) square feet.~~

~~C. Exterior Sales Area One (1) space per each five thousand (5,000) square feet of exterior nursery sales area.~~

~~Note _____ 6:
Generally, if an applicant is proposing a number of parking spaces that is twenty (20) percent (applicable to developments of less than five thousand (5,000) square feet of floor area) or ten (10) percent (applicable to developments that exceed five thousand and one (5,001) square feet of floor area), or more in variance to the minimum parking requirement, a waiver shall generally not be approved. A parking study, in lieu of a waiver, shall be submitted to support more or less parking for a proposed use. A Transportation Engineer or Planner with previous experience in preparing parking studies shall prepare and certify the alternative parking study. Study parameters should be discussed with the assigned case manager of the Planning Department at a scoping meeting prior to preparation of the study. The contents of the parking study should generally include a statement of the problem, proposed methodology, and an examination of similar localized variables such as: use, floor area, site and building characteristics, and the local market. Upon receipt of the alternative parking study and any modifications made thereto based upon staff review, the parking study shall be used as the source authority for determining the acceptable number of parking spaces to be depicted on an approved general development plan or site plan.~~

Sec. 23-5.9.4. . Parking Geometrics Standards:

(a) Parallel Parking Spaces: There shall be 3 major layouts for off-street parking.

Table: Parallel Parking Dimensions

Direction of Parking	Stand Width (feet)	Depth of Stalls (feet)	Aisle Width (feet)
One-way aisle (one-sided parking)	8.5	22	12
One-way aisle (two-sided parking)	8.5	22	15
Two-way aisle (two-sided parking)	8.5	22	20

(b) Universal Size Parking Dimensions: Required off street parking shall be consistent with the following Universal Size Parking Dimensions below:

Table: Universal Size Parking Dimensions

Parking Angle	Depth of Stalls			
	Stall Width (feet)	Perpendicular to Aisle (feet)	One-Way Aisle Width (feet)*	Two-way Aisle Width (feet)*
45°	8.5	19	15.5	18
60°	8.5	20	17	19
90°	8.5	18**	23	23
*	Where required, fire lanes shall have a minimum width of 20' and a maximum width of 24'.			
**	This dimension may be reduced by up to 1.5' where the Zoning Administrator determines that adequate "head in" overhang exists exclusive of required planting or screening requirements, and sidewalks.

§ 3. That Chapter 23, Article 5, Division 10 be and are hereby **amended** and reordained as follows:

DIVISION 10. - OFF-STREET LOADING

Sec. 23-5.10.1. - Applicability.

All structures built and all uses established hereafter shall provide accessory off-street loading spaces in accordance with the following regulations; provided, however, in a Planned Development Commercial (PDC), Planned Development Housing (PDH), Mixed Use (MU), Village (V) district, the provisions of this ~~division~~Division shall have general application as determined by the ~~director of planning~~Zoning Administrator.

(Ord. No. 23-66, 10-24-95)

Sec. 23-5.10.2. - General provisions.

- (a) All required off-street loading spaces shall be located on the same lot as the use served; provided that the ~~director of planning~~Zoning Administrator may waive such location requirement in those instances where the provisions of ~~p~~Paragraph 2 are satisfied.
- (b) Required off-street loading spaces may be provided cooperatively for two or more uses, subject to arrangements that will assure the permanent availability of such spaces to the satisfaction of the ~~director of planning~~Zoning Administrator.
- (c) No loading space or berth shall be located in a required front yard.
- (d) All off-street loading space shall be provided with safe and convenient access to a street. If any such space is located contiguous to a street, the street side thereof shall be curbed, and ingress and egress shall be provided only through driveway openings through the curb of such dimension, location and construction as may be approved by the ~~director of planning~~Zoning Administrator in accordance with the design standards.
- (e) All off-street loading areas, including aisles and driveways, shall be constructed and maintained with a dustless surface, in accordance with the design standards.

The ~~director of planning~~Zoning Administrator may approve a modification or waiver of this requirement on a temporary basis for a period not to exceed two (2) years. Such off-street loading areas, including aisles and driveways, shall be constructed, graveled and maintained in good condition at all times in accordance with standards approved by the ~~director of planning~~Zoning Administrator.

- (f) All off-street loading areas shall comply with such geometric design standards as may be defined by the ~~director of planning~~Zoning Administrator, but in no event shall the required dimensions be less than fifteen (15) feet wide, twenty-five (25) feet long and fifteen (15) feet high, except that where one (1) such loading space has been provided, any additional loading space lying alongside, contiguous to, and not separated from such first loading space need not be wider than twelve (12) feet.

~~(g) All lighting fixtures used to illuminate off-street loading areas shall be designed to minimize glare.~~

- ~~(h)~~ Where a given use or building contains a combination of uses as set forth in the following section, loading facilities shall be provided on the basis of the sum of the required spaces for each use.
- ~~(i)~~ If there is uncertainty with respect to the amount of loading space required by the provisions of this division as a result of an indefiniteness as to the proposed use of a building or land, the maximum requirement for the general type of use that is involved shall govern.
- ~~(j)~~ Uses for which off-street loading facilities are required by this ~~division~~Division, but which are located in buildings that have a gross floor area that is less than the minimum above which off-street loading facilities are required, shall be provided with adequate receiving facilities as determined by the ~~director of planning~~Zoning Administrator.
- ~~(k)~~ Notwithstanding the standards set forth in ~~s~~Section 23-5.10.4 below, in no instance shall more than five (5) off-street loading spaces be required for a given use or building except as may be determined by the ~~director of planning~~Zoning Administrator.
- ~~(l)~~ Where the required number of loading spaces is not set forth for a particular use in the following section, and where there is no similar type of use listed, the ~~z~~Zoning ~~a~~AAdministrator shall determine the number of spaces to be provided.

(I) Loading spaces shall not impede traffic circulation, including bicycle, pedestrian and vehicular.

§ 4. That Chapter 23, Article 5, Division 11 be and are hereby **amended** and reordained as follows:

DIVISION 11. - OFF-STREET STACKING SPACES

Sec. 23-5.11.1. - Applicability.

All drive-in uses established hereafter shall provide accessory off-street stacking spaces in accordance with the following regulations.

(Ord. No. 23-66, 10-24-95)

Sec. 23-5.11.2. - General provisions.

- (1) All required off-street stacking spaces shall be located on the same lot as the use served; provided that the ~~director of planning~~ Zoning Administrator may waive such location requirement in those instances where the provisions of ~~paragraph~~ Paragraph 2 are satisfied.
- (2) Required off-street stacking spaces may be provided cooperatively for two (2) or more uses, subject to arrangements that will assure the permanent availability of such spaces to the satisfaction of the ~~director of planning~~ Zoning Administrator.
- (3) No stacking space shall be located in a required front yard.
- (4) All off-street stacking spaces shall be provided with safe and convenient access to a street. If any such space is located contiguous to a street, the street side thereof shall be curbed, and ingress and egress shall be provided only through driveway openings through the curb of such dimension, location and construction as may be approved by the ~~director of planning~~ Zoning Administrator in accordance with the ~~design~~ Design standards Standards.
- (5) All off-street stacking areas, including aisles and driveways, shall be constructed and maintained with a dustless surface, in accordance with the design standards.

The ~~director of planning~~ Zoning Administrator may approve a modification or waiver of this requirement on a temporary basis for a period not to exceed two (2) years. Such off-street stacking areas, including aisles and driveways, shall be constructed, graveled and maintained in good condition at all times in accordance with standards approved by the ~~director of planning~~ Zoning Administrator.

- (6) All off-street stacking areas shall comply with such geometric design standards as may be defined by the ~~director of planning~~ Zoning Administrator, but in no event shall the required dimensions be less than nine (9) feet wide and eleven (11) feet long.

~~(7) All lighting fixtures used to illuminate off-street stacking areas shall be designed to minimize glare.~~

- ~~(8)~~ If there is uncertainty with respect to the amount of stacking space required by the provisions of this division as a result of an indefiniteness as to the proposed use of a building or land, the maximum requirement for the ~~general~~ similar type of use that is involved shall govern.

~~(8) Required stacking spaces shall not impede, conflict or block pedestrian access to any public entrance of a building and shall not impede, conflict or block traffic circulation, including bicycle, pedestrian and vehicular.~~

(Ord. No. 23-66, 10-24-95)
