Through the passage of the GO Virginia legislation – including the creation of the GO Board, the Collaborative Jobs Act, investments in efficiency, infrastructure and research – as well as significant funding for many of these initiatives, we are positioned to incentivize collaboration among business, education and local governments that will result in more higher-paying jobs and economic growth.

To stay current on upcoming Board meetings, as well as meetings of the guidelines workgroup, we will continue to update the [GO Virginia website](#) as information becomes available. You may also sign up for notices of these events through the [Department of Housing and Community Development](#).
