Re: Request for Acknowledgment

Dear Pastor Marston,

We hope this finds you well. As you may be aware, we recently submitted a special use permit application to construct a one hundred and fifty (150) foot monopole telecommunications tower on a portion of the Dominion Virginia Power substation, which is adjacent to your parcel. We have included with this letter a copy of the generalized development plan, which depicts the location of the tower, including a sheet that shows the so called "buckle over distance".

The buckle over distance is the area where a portion of the tower, pursuant to an unlikely catastrophic event, could tilt over (but not collapse) onto a portion of the church property adjacent to our proposed site. As you can see, the buckle over distance within the church property is a very small area and not near any improvements or church activity.

Spotsylvania County, Virginia ("County"), pursuant to Section 23-7A.4.1.2 (a) of the County zoning ordinance, requires us to notify you of this possibility, although again, remote and unlikely. The purpose of this letter is to provide you the aforesaid notice and to obtain your acknowledgement of the same, and further confirm your consent to and are not opposed to our request for a waiver to Section 23-7A.4.1.2 (a) of the County zoning ordinance, and support the project. We have provided a signature block below for these purposes.

Thank you in advance for your time on this matter, and we are happy to further discuss at your convenience.

Sincerely,

Leonard Forkas, Jr.  
President, Milestone Communications

We acknowledge and agree:

Salem Fields Community Church
