

Spotsylvania County Comprehensive Plan

Fire, Rescue and Emergency Management (FREM) Update

Planning Commission Work Session

August 7, 2019

FREM Public Facilities Update

- Drafted in collaboration with County FREM staff;
- Existing facilities and services information updated and shows progress since 2013 update;
- 5-Mile response areas mapping updated with FireView software is better representation of “real world” road travel distances as opposed to “as the crow flies” 5-mile buffers;

Spotsylvania County Public Safety 5-Mile Response Map

Legend

Public Safety Buildings

- Fire / Rescue Station
- Fire / Rescue Station (Long Term Future)[^]
- Fire / Rescue Station (Short Term Future)[^]
- Sheriff Substation

- D. Regional Training Center

*Public Safety & Judicial Center is comprised of Fire Rescue, Emergency Management, Sheriff Offices, Courts Complex, and Magistrates Office

FREM Public Facilities Update

- Improved response distance maps better establish areas of need outside of recommended response areas, resulting in recommended short and long term capital improvements;
- Incorporates the GWRC Regional Hazard Mitigation Plan by reference;
- Short term and long term goals aimed at service and capital facility improvements sensitive to the Code of Virginia Sect. 15.2-2232.

Project Design Based Improvements

- Staff intends to introduce goals to improve FREM conditions within the community by design as part of the Future Land Use update (future work session).
